ABSTRACT

Data collected in the seventh annual survey of fall 1980 are presented with summary data from fall 1974 through fall 1980 on the use of residence hall facilities. In addition to a preface and introduction, a summary of data and definitions is providei. Part One offers summary tables for fall 1974 through fall 1980: total and percent of use of net revenue-producing adjusted design capacity; non-revenue and revenue-producing use of residence hall for purposes other than resident student occupancy; and number of students per resident assistant. Part Two contains detailed tables for fall 1980 on: use of original design capacity of residence hall facilities; use of net revenue-producing adjusted design capacity; and resident assistants, bed rental waivers and number of students per resident assistant. Part Three contains a publication list. In the summary of data, several results are noted, such as: in the fall of 1980, the total current use of residence hall facilities (headcount) was reported to be 66,003; the net revenue adjusted design capacity for the fall of 1980 was reported to be 61,912 bedcount; and of the total use, 65,834 or 99.7 percent was for resident student use. PREFACE

This report of Utilization of Residence Hall Facilities consists of detailed data collected in the seventh annual survey of Fall 1980, as well as summary data from Fall 1974 through Fall 1980. Detailed tables for Fall 1974, Fall 1975, Fall 1976, Fall 1977, Fall 1978 and Fall 1979 are available in earlier reports published by this office (see Publications List, page 29). Details regarding the residence hall program are crucial in the planning and budgetary functions of each institution. While the survey was specifically designed to meet the data requirements of the State University Central Administration Offices of Finance and Business and Academic Services, requests for these data have subsequently come from many sectors both inside and outside of the State University.

The study includes all State-operated/funded institutions which have residence hall facilities. Any residence hall facilities available at locally sponsored Community Colleges under the program of the State University of New York are financed in a different manner and are not included in the study.

A study of this complexity could not have been completed without the full cooperation of the institutional respondents, other Central Staff Offices, and the professional, statistical and typing staff of the Central Staff Office of Institutional Research and Analytical Studies.

Tommy Annas
Assistant Vice Chancellor

Emma Mogilensky
Associate

INTRODUCTION

The methodology and definitions used in this study have been developed to be consistent with the University Guidelines for Utilization of Residence Hall Facilities and the State University of New York Policies and Procedures Manual. Definitions of the basic concepts used in this report are provided beginning on page xi.

The four tables of data for Fall 1980 may be described as follows:

Table 6 presents aggregated data which describe the original capacity of the residence hall facilities, the reductions or temporary adjustments to this original capacity, net available space and actual utilization.

Table 7 provides more detailed data concerning the types of utilization of net available space depicted in Table 6. Resident student utilization as well as other types of utilization are arrayed in categories, as described in the column headings.

Table 8 focuses on resident student utilization summarized on Table 7. Data are arrayed by institution, type of accommodation and rate paid by the students.

Table 9 arrays data regarding the number of resident students, the number of resident assistant bed rental waivers used, the number of resident assistants and the ratio of resident students to resident assistants by institution.

The summary tables depict important segments of these data concerning utilization of residence hall facilities from Fall 1974 through Fall 1980. Trends in data reported to Central Office during the seven years of this study are shown in five separate tables covering: total utilization (headcount), percent utilization, non-revenue assignments, revenue producing utilization for purposes other than resident student occupancy (bedcount) and the ratio of students to Resident Assistants. The definitions over the seven year period are consistent with those described beginning on page xi.

SUMMARY OF DATA

In the Fall of 1980, the total current utilization of residence hall facilities (headcount) was reported to be 66,003. This utilization represents a slight increase in utilization compared to the Fall 1979 utilization (see below and see Tables 1 and 6). The net revenue adjusted design capacity for the Fall of 1980 was reported to be 61,912 bedcount.

Summary of Utilization of Original Design
Capacity of Residence Hall Facilities
State-operated/funded Institutions,
State University of New York
Fall 1974 through Fall 1980

Year	Original design capacity (bedcount)	Net revenue producing adjusted design capacity (bedcount)	Total utilization (headcount)	Percent utilization of net revenue producing adjusted design capacity
Fall 1974	66,121	60,845	60,672	99.7
Fall 1975	66,121	60,785	62,025	102.0
Fall 1976	66,521	61,792	61,440	99.4
Fall 1977	66,569	61,453	62,339	101.4
Fall 1978	66,569	61,095	63,283	103.6
Fall 1979	66,569	61,183	64,606	105.6
Fall 1980	66,569	61,912	66,003	106.6

Of the total utilization, 65,834 or 99.7 percent was for resident student utilization.

The average number of students per resident assistant has remained relatively constant for the past seven years (see Tables 5 and 9).

Revenue producing utilization of residence halls for purposes other than resident student occupancy continue to decline. This bedcount has been reduced from 1,351 in Fall 1974 to 206 in Fall 1980 (see Table 4). This trend corresponds with the State University's Guidelines which give first priority for utilization of residence halls to the housing needs of students.

Percent utilization of net revenue producing adjusted design capacity was reported to be 106.6 percent in the Fall of 1980. This utilization represents a one percent increase from the reported 105.6 percent utilization in the Fall 1979 (see Tables 2 and 6). In the Fall of 1980 nineteen of the twenty-five institutions surveyed report utilization of greater than 100 percent while two other institutions report utilization ranging from 97.8 percent to 99.6 percent. The Agricultural and Technical Colleges continue to show a net utilization of greater than 100 percent occupancy. Fall 1980 data indicate an occupancy of 120.7 percent at these colleges (see Tables 2 and 6).

DEFINITIONS

Residential Capacity Descriptors

BEDCOUNT—a unit of measure used to describe the capacity of the facility for residential purposes.

ORIGINAL DESIGN CAPACITY--the original residential capacity of the facility (expressed as BEDCOUNT*) as determined by architectural plans.

ADDITIONS TO ORIGINAL DESIGN CAPACITY--permanent conversions of on-campus facilities which increase their residential capacity (expressed as BEDCOUNT).

NON-REVENUE ASSIGNMENTS--residential capacity (expressed as BEDCOUNT) exempted from revenue production for special uses such as for RESIDENT ASSISTANTS. These assignments are subject to annual review by Central Administration.

NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY--the capacity of the facility expressed as BEDCOUNT, available for revenue producing uses. (ORIGINAL DESIGN CAPACITY, less NON-REVENUE ASSIGNMENTS, plus ADDITIONS TO ORIGINAL DESIGN.)

Actual Occupancy/Use Descriptors

HEADCOUNT--a measure of use which is the number of students or other persons occupying the facilities for residential purposes; or if the use of a facility is not residential (e.g. office space), then its use as expressed in terms of HEADCOUNT is the number of students displaced by the use of the facility for other purposes.

RESIDENT STUDENT OCCUPANCY--the HEADCOUNT of enrolled students and their spouses who reside in residence hall facilities. (This excludes RESIDENT ASSISTANTS.)

RESIDENT ASSISTANTS--students assigned to and residing in residence hall facilities for the purpose of peer counseling and the betterment of the quality of life within the residence hall complex. The BEDCOUNT of facilities dedicated for RESIDENT ASSISTANT occupancy is exempted wholly or in part from revenue production.

OTHER USES--uses of residence hall facilities for non-residential purposes such as office space or classrooms, or for residential use by students from other colleges or special non-student residential occupancy.

---

*Terms in capital letters are defined elsewhere in the "Definitions".

Utilization Indices

CURRENT UTILIZATION--the total actual utilization (expressed as HEADCOUNT) of an occupied facility's available revenue producing capacity. This is the sum of total RESIDENT STUDENT OCCUPANCY and total OTHER USES.

NET UTILIZATION--the CURRENT UTILIZATION less NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY. This figure is negative (-) if the facility is under-utilized and positive (+) if the facility is over-utilized.

[a]The students reported as Resident Assistants perform a range of assignments which vary in type and degree of commitment. Therefore, the ratios shown here do not necessarily reflect differences in Resident Assistant services available to students.

[b]Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

[c]Calculation excludes Downstate Medical Center and Maritime which did not have Resident Assistants.

[d]Calculation excludes Downstate Medical Center which did not have Resident Assistants.

[a]Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/ Rome and the Statutory Colleges.

[b]If headcount exceeds bedcount, the accommodation is over-utilized or "crowded". If bedcount exceeds headcount, the accommodation is under-utilized.

[c]Bedcount of completely unoccupied rooms, suites or apartments.

[d]Includes rooms, suites and apartments.

[e]Other types of accommodations, including septuples and octuples with the appropriate adjusted design capacity bedcount, and space used as sleeping quarters not originally designed for that purpose, such as lounges and study areas where the adjusted design capacity bedcount is zero.

[f]Includes accommodations designed as Double Special Rate.

[g]Some beds briefly unoccupied as of census date.

[h]Includes converted study rooms.

[i]Includes single occupancy at 175% of double rate.
